

Who we are?

- ✓ Life at Ajatus is shaped by the collective sense of values held by everyone here.
- ✓ We are a small team of highly skilled and motivated young people who are working on cutting edge technologies to provide solutions to the various sectors of business.

What do we work on?

- ✓ **Setting Cloud Based infrastructure** for enterprises and preparing them for the future
- ✓ **Creating highly secure web-based enterprise applications**
- ✓ **Improving scalability and performance** of existing infrastructure and applications
- ✓ **Refactoring and revamping** existing code base and legacy applications

Why Ajatus?

- ✓ **Quality:** Quality for us is not just about building services which are most usable & productive, its also about the customer's satisfaction. One customer's concept of "great quality" might not be the same for another and we understand that very well.
- ✓ **Fastest Deployments:** We guarantee the fastest deployment services compared to our counterparts without affecting quality. So if you want your service to be up and running ASAP, call Ajatus.
- ✓ **Infrastructure for the future:** Here at Ajatus we have a foresight into the future. Nothing stays forever and we very well understand that. Thats why we provide the best infrastructure with the future of your application in sight.
- ✓ **Scalability:** Imagine a web application built to handle a thousand users at a time, being hit by a million, when most application vendors dread this scenario, we take pleasure in solving them.

What we have achieved

Ajatus in such a short span of time has many accolades & unique achievements to its name.

- ✓ Nominated for Business World Young Entrepreneurs Award 2010
- ✓ Getting recognition from **Canonical** for Open Source Web based software development & providing timely services with quality. In the process we have become one of the few companies from India to achieve this feat.
- ✓ We are a technology partner to **Novell**.
- ✓ Ajatus is a **Microsoft** "Innovate On" certified company.
- ✓ Enlisted under **UNICEF** for its future projects.
